Agree	1	7.7%		
Strongly agree	11	84.6%		

Overall I was satisfied with the quality of Jeremy Gillen's teaching

## Raw comment data

### The best features of Jeremy Gillen's teaching were

Comments
Very good as a tutor. Helpful, friendly, and approachable. Almost solved all the queries we ask him.
Apart from being a tutor, he is THE BEST COURSE ADMIN out there. He manages the course flawlessly. Provided timely feedback and kept the course interesting. He introduced leaderboards and a bonus marks system that gave us some extra motivation to study.
Jeremy is very active in communicating with us during tutorial, and letting us choose the teaching format we want. Jeremy also gives helpful feedback about the tutorial questions and assignment.
I find the advice and the hints that Jeremy give were really helpful to me to complete lab works and assignment. Also, he always interact and talk everyone in the class. Even if sometimes we discuss about topics that not related to the courses, I think that this encourage everyone to participate in the class which is really important especially during this difficult time.
He is quick to give feedback and he has a good attitude to answer questions.
He is patient and friendly.

### Jeremy Gillen's teaching could be improved by

Comments
All good.
All good.
It would be better if Jeremy uses whiteboard more. Sometimes he explain the tut question just by using the computer. I can understand his explanation, but I think it would make the explanation much clearer if the whiteboard were use, since it can show the approach to the tut question step by step.
Make a briefly summary of the theory (10 minutes) at the beginning of every class.
